Welcome again to British Oi!s main feature, 'Right Handed News' the most upto date news pages anywhere you'd find, we don't just cover bands, we cover gigs forthcoming, new child births, anything really that has a bit of importance to our glorious Blood & Honour movement, if you have some news, then send it in, however small, it all helps make a comprehensive news page.....

**GREAT BRITAIN** - Lots happening on the home front as always.

ISD Records have released no less than three CDs, two videos and an array of posters. The CDs are 'A collection of hate' by the USA band 'The People Haters', 'Live in Waterloo '92' by Skrewdriver, which is now out even with the first pressing getting confiscated by the Police and lastly in conjunction with Billy of Celtic Warrior, the long awaited Violent Storm CD amply named 'Celtic Warrior'. The videos as per mentioned are two full coloured covered videos with Skrewdriver live, Video No.1 live in Germany features Skrewdriver in great quality playing a open air show and Video No.2 being Skrewdriver live in Derbyshire,

which includes some stunning camera work and a brilliant atmosphere topped with great music which really makes this compelling viewing, British Oi even gets a mention, can't be bad Ha Ha. Lastly the posters ISD have brought out are three black and white posters and one full colour, great photos of Ian singing and the colour one is the same as the blood stained Ian on the back of the Squadron 'Combat, Battle & Burn' CD, incidentally Ian on this night was attacked by Anti Fascists alongside Ken McClellan and even at odds of way over 10 against one they came out victorious.

All these goods and more should be available from stockists all over Britain and Europe who deal with ISD merchandise like R.I.D, Groove, NS 88 etc etc. Videos £15 each, CDs £12 inc P&P, and posters £3 each. Support ISD and your supporting Blood & Honour.

They plan new realeases of Brutal Attack Live, Razors Edge, Celtic Warrior and Blood and Honour Comp. Vol.2 over the coming months and also a new video of Skrewdriver of unreleased footage.

Lets have a look at the state of what the British bands are upto...

## NEWS SUPPRESSED BY THE DAILY PRESS

**WARLORD** have played two gigs to date and have proved worthy competition to the 'old' established bands with there lightning set of Skrewdriver numbers and new material to come soon aswell as there debut CD on ISD Records which is in the pipeline. They played at the Ian Stuart Gig and also recently at a farewell.gig in Heanor Derbyshire to a great landlord who has always supported our gigs etc. Stigger incidentally will have one of his tracks off the Pride CD 'Sleepwell my brother' included on the Ian Stuart tribute CD by Resistance called 'The flame that never dies' out soon. Also Graham of the band whose the bassist from now defunct band 'Avalon' has also been into the studios and recorded two Avalon tracks for the forthcoming 'Blood & Honour Vol.2 Comp. CD' on ISD.

Watch out for Warlord, coming your way.

**SQUADRON** have been over to Sweden and Hungary recently (See gig review). The Swedish gigs were a kinda mini tour and they did three dates across the country with numerous bands in support, incidentally Stigger of Warlord played with them doing some of the great Patriotic ballads, the tour I assume was to coincide with the release of the bands latest CD 'Decade of defiance' which should be out by the time your reading this on the Nordland label.

The band however at present are taking a short break from the scene after the heavy schedule but will honour two dates already booked in the USA at Christmas time in Ohio and Texas.

**NO REMORSE** have been gigging up and down the country introducing there new singer 'Big Jacko' at have played gigs in Wales (See Reviews) and also Derbyshire, the band have also played in Germany where due to the Police cancelling three booked halls,the bands, and all the crowd numbering about 1500 ended up in a Car Park and due to a faulty PA system no one except

No Remorse played by using a practice amp which apparently was more like an acoustic set but had the crowd going wild, a battle erupted with the Police during this and over 150 were arrested including J.C the bands drummer who was later released.

They have a new set of songs also that include tracks such as 'In ZOG we trust' 'White Revolution' 'Exterminator' 'SS - Double Victory' and a remake of the Sex Pistols 'God save our Queen' entitled 'God save our Race'.

No Remorse plan a Live CD on ISD Records in the near future and also a full length studio CD called 'Exterminator'.

Catch the band as they're really well rehearsed and great entertainment.

**RAZORS EDGE** are in the studio as this is released recording there new CD on ISD 'Whatever it takes' and have also been into the studios and recorded two tracks for the new B&H comp CD which are called 'No Surrender' and 'Hail Blood & Honour'.

The band have gone through some line up changes but look settled with the addition of Kelly on bass alongside Martin Cross on Guitar.

They played a short but impressive set at this years Ian Stuart gig and plan an invasion of Australia, yes Australia, the band have been approached and asked to play in the first Australian Aryan Festival in New South Wales in January alongside one presumes the mighty 'Fortress'.

They also have two tracks due out anyday on a compilation by DIAL Records called 'No More Brothers Wars' with the tracks 'Hands Across the Sea' 'Lest we forget'.

Also in the pipeline for the band is a split CD on DIAL from Germany, split with a Dusseldorf band, six tracks each, called something along the lines of 'Eternal Friendship' in a similar vain as the German British Friendship material.

**BRUTAL ATTACK** have had some bad

news, Excalibur there records label has been shut down by the German ZOG but they march on and British Oi is informed they are in the studios as this goes to print for a Swedish label rumoured to be 'Svea Music'.

Also White Terror Records of the USA are due to release the 'Best of Brutal Attack' on CD.

Brutal Attack have been linked with a planned Finnish gig this Christmas, surely Ken, if your gonna do a gig, it has to be your British fans ?

ENGLISH ROSE have gigged at the Ian Stuart memorial and have been into the studios and recorded a few tracks for the Blood & Honour Comp and also some other compilations planned, the band also now have a CD out which contains there first and second LPs on it which are 'Never be silenced' and 'The flame still burns'. They are apparently taking a short break from the scene to write new material for there next full length CD rumoured to be on ISD.

CELTIC WARRIOR have been gigging hear there and everywhere including trips to Ulster, Derby, Caerphilly and by the time this goes to print Italy too. They have stocks of the new CDs 'Let the Battle Begin' and the great Violent Storm CD 'Celtic Warrior' plus loads of shirts etc, write for a list to PO Box 214, Cardiff, South Wales, GB.

Billy of the band has also been working together with Martin Cross and have done several songs under a new name of 'The Order', some rocky, some ballad type of material.

Onto other news from the British W.A.R....

Life Rune Books have a tape of a band called 'Dresden' for sale, the tapes called 'Call of the Blood' and is racial rock/ballads etc, write to Life Rune at BCM Box 6089, London, WC1N 3XX, it costs £5.50 including P&P, £6.50 overseas.

CONGRATULATIONS to Gary and his wife Izzy on the birth of baby boy Kieran-Ian born on the same day as the Ian Stuart memorial gig (Typical women eh Ha Ha) and weighed in a bonny 6lb 9oz and makes a brother for first child Britannia, we at British Oi give you the great salute of....many sleepless nights!

There are new issues of the Order and Blood & Honour now available for £1 and SAE from BCM Box 5608, London, WC1N 3XX.

A new Mail Order service has also started in the states and is called 'Stormfront Records' and so far only has stocks of a handful of CDs including the great Nordic Thunder CD 'Final Stand' and White Pride 'Your loss is our gain', for a list of merchandise and news of how they plan to expand write to Stormfront, Dept, B.Oi, PO Box 2004, Fond Du Lac, WI 54936, USA.

Rumour control says that White

Rock Hardcore band 'Berserkr' have split up, maybe a sick rumour but I'm told there second CD has been recorded and is called 'Crush The Weak', Berserkr were apparently hoping to play at a gig in Ohio with Squadron and BFG at Xmas, lets hope its not true as Berserkr are a brilliant band.

In British Oi No.35 we stated that Das Reich cost £3000 to play a gig in Sweden, we have been told this figure is somewhat over the top and the band only ask for money to cover air fares.

MSR Productions has a second tape of German NS music out now called 'Viking Youth Vol.2' \$10 from MSR PO BOX 1291, Wheat Ridge, CO 80034-1291, USA, they also have a comp. CD out soon featuring an array of bands including Vaginal Jesus, Crew X, Lightning Rod and more, it will be called 'Leaderless Resistance - A pan aryan compilation'.

BFG have stated there next CD will now be self funded after the closure of German label Excalibur and the one after will be back on Resistance after royalties were sorted out. The band now have a second guitarist called Dennis, the brother of Drummer Mike. BFG have asked British Oi to quosh rumours that there next CD will be thrash metal, they have said "The CD will be in pure BFG tradition".

New issues of Blood & Honour USA, Warriors Call and Resistance are out now so buy (See fanzine lists). A new zine for Aryan Women also called 'Valkyrie Voice' is great, write to PO Box 10, St. Joe, Arkansas, 72675, USA (\$3).

BATTLEAXE are a new up and coming band from San Diego, they have been busily playing concert in the USA and have a debut CD released soon, we'll bring you more news on them as we hear it.

**SWEDEN** - As per usual lots going on in the land of Ice, Nordland Records have been busy and have released new CDs by 'Division S' and 'Kraftschlag' a great German

band and Nordland over the coming months plan to release the Squadron CD 'Decade of Defiance' anyday. They also have the rights to release the new Rahowa CD and sell in Europe and they also plan releases of Swedish bands 'Totenkopf and Heysel' and later on rereleasing white pride world wide Vol.3.

Bad news is 4 Skinheads, aged between 18 and 15, murdered a 14 year old white boy recently and has obviously created extreme bad anti skinhead publicity in the country with the Swedish ZOG using it as an opportunity to stir up hatred against a growing scene.

Ragnarock Records have released new CDs by 'Odium called Hart mot Hart' 'Rock for Sweden Part 2 'Motstand' and Heimdall 'Sweden Awake'.

Svea Music however have released a great compilation called 'White Solidarity' and amongst featured bands are 'Brutal Attack and Fortress'. svea will also release a mini CD with five bands on it in the first week of December called 'Santa was a skinhead' and the bands are Volund Smed, Vit Aggression, Heysel, Vargflock and Freikorps. The songs are all well known christmas carols sang our way!! For more info write to Svea - Box 2019, 151 02 Sodertalje, Sweden.

**DENMARK** - NS 88 have a new and impressive catalogue out which contains most of the CDs mentioned in this issue plus an array of videos which would make Steven Spielberg a bit angry!

NS 88 are also working together with Ainaskin videos in Finland to produce a skinhead video fanzine which will have interviews, adverts, and lots more, for more info write to NS 88, Poste Restante, 3400 Hillerod, Denmark.

**FINLAND** - Theres several new Finnish bands to align with the great Mistreat namely a band called 'Pig Killer' and a studio band called 'Viking Division' who do a C18 support song.

There was also a Finnish gig

with Freikorps and swastika playing that went ahead even against hysterical rantings from ZOG.

**NORWAY** - has seen a rise in the NS scene with help from a band called 'Storm' who have released a CD called 'Nothorn Wind' and has very heavy nationalist leanings. In Trondheim a big city in Norway there's a new Patriotic band who shall release a CD in the spring of next year, our Norwegian comrade forgot to tell us their name. Also in Stavanger, South Norway a gang of young skins are starting a new zine called White Revolution, write to Einsatzgruppen, PO Box 131, 4001 Stavanger, Norway for more info.

Fritt Forum is the best Norwegian magazine available and has some articles in English. Write to FF at Box 104, N-2060 Gardermoen, Norway.

**ITALY** - Not too much to say about Italy this time except several gigs are planned and one will include Celtic Warrior and Poles 'Konkwista 88' which will be near Milan.

ADL 122 are working on their new CD which should be out before the end of the year and also Gesta Bellica and Corona Ferrea will have a full length CD released in a few months, Tuono Records have done some great work for the white rock scene in Italy and have gained a great amount of interest from Joe Public to our side, write to them at C.P SUCC.6, 36100 Vicenza, Italy.

**GERMANY** - Well big news as already mentioned is that Excalibur Records has been shut down by the German ZOG on the grounds that the lads who ran the label, Peter and Fussel, were selling illegal merchandise, namely Resistance material, which obviously is outlawed in the anti democratic state. Peter received a jail term of 14 months and Fussel 18 months as he had the 'offending' material at his home, Peter however has lodged an appeal against sentencing but apparently has little hope.

Excalibur had made great advances

for our scene and will be greatly missed, British Oi's thoughts are with the lads and also the families they leave behind.

VINCENTE DIRECTORI PUBLICATIONS are one of the leading German labels for Patriotic music at present (see records reviews) and have ambitious plans with forthcoming releases by Sturmtrupp 'Die alten Zeiten' and new CDs by Sturmflagge and Asgard (Kai of Freikorps is this one man band) and a list of videos etc, write to them at Directori-Postfach 1365, 21505 Glinde, Germany.

The N.P.A and Anti Antifa are two great German organisations carrying on the fight in the fatherland and are literally at the forefront of any street activities, they are currently having extreme problems with ZOG as is all Germany, but they have asked British Oi to announce to our readership and to anyone interested in their struggle not to use their existing address due to a fear of postal malpractice, please write to PO Box 705, D-15207 Frankfurt, Germany. Support these!

Some people say, especially newsmen, media moguls etc that the German regime in Bonn has halted the rise of German NS/Nationalism, well from what we hear 'they' at Bonn had better watch out as it's on the march.....

**SWITZERLAND** - the only news I get from the beautiful country is from the very active Hammerskins, they have produced a great magazine and features your favourite zine - yes British Oi, write to them at PO BOX 656, 6014 Littau, Switzerland.

The Swiss Hammerskins also recently had a summer party which was well attended but some traitorous elements grassed about it to the Police and now the unit is under Police investigation and complete media contempt.

**EASTERN EUROPE** to round up the news, in Serbia the scene has exploded and in every city a strong unit of Blood & Honour supporters is growing, White Eagle zine is

a great Serbian zine available from Marko-Blaze Jovanovica 12/6, 11160 Belgrade, Serbia. Also a new band can be contacted through this address and are 'State Impact' who have a good demo out and hope to maybe do a Serbian - British Friendship record.

In Slovenia an attack on 3 Amnesty International members who were apparently seriously wounded by skinheads has led to increased problems from the Police who have infact set up a special anti Skinhead unit. Arrests have been made after the incident and two Slovenians charged alongside a German Skinhead who had no connection to the fight.

The Slovenian President in the meantime has publicly apologised to the Amnesty brigade and swore to land harsh sentences on the alleged assailants.

In Slovakia there was a large gig on 5th August with numerous bands playing including ADL 122, Konkwista 88, Corona Ferrea, and Czech bands Conflict and S.A.D plus other Polish and Hungarian bands, about 800 attended. For more info on the Slovak scene write to Blood & Honour Slovakia, DEPT B.OI, PO Box 87, 850 07, Bratislava 57, Slovakia. They produce B&H Slovak edition and also a NS mag called 'Natural Violence'.

Well that rounds off this issues NS Right handed news, but we put out this message to our readers, please send in all relevant news that we can use - GIGS, Band News, Activity reports, New zines, Births, marriages, it all adds upto a comprehensive read, so write in to RHN PO BOX 249, Derby, DE21 9EG, Great Britain.....Cheers '88'.

# RAGNAROCK RECORDS

## A HISTORY.....

Ragnarock Records was founded in the summer of 1993 by Lars Magnus Westrup and a handful of Nationalist businessmen and activists. Its purpose was to produce and distribute Swedish Nationalist rock music as an alternative to the establishments degraded and cosmopolitan 'MTV culture' and in order to spread the message of national revolution among Swedish Youth in general.

Mr. Westrup had a long history of involvement in both media and the nationalist movement. He started out as a member of Sveaborg, the elite force of Swedish NS activists during the second world war and later became the founder and director of the Swedish Radio Station on Mallorca during the nationalist regime of General Franco, naturally causing an uproar in the zionist controlled media back home in Sweden. After the death of Franco, Westrup returned to Sweden and quickly became the press secretary of the Nationalist Framstegspartiet (The Progressive Party). He also established close relations with Per Engdahl, the world famous Fascist ideolog and leader of the 'Nysvenska Rorelsen' (New Swedish Movement).

True to his convictions and character, comrade Westrup

despite reaching the age of 70 years and suffering from ill health, immediately realised the political potential of a Swedish Nationalist Rock company. He put in all his media skills and managed to get Ragnarock on the air both in radio and television, followed by hysterical articles in the 'Swedish' (and even Norwegian) newspapers. This way he like no other gave Swedish White Rock 'n' Roll a face and made it known to the Swedish public in general.

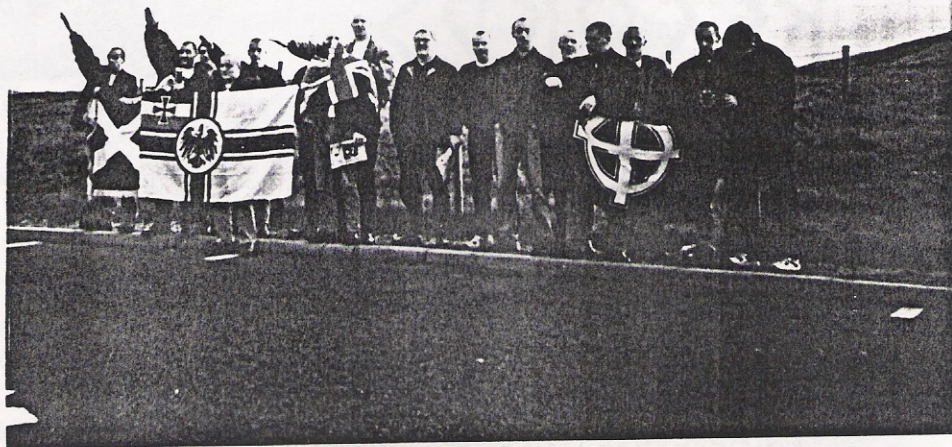

However his ill health eventually won the battle the cosmopolitans never could win. On the 16th May '95 comrade Westrup travelled onto Valhalla after serving our cause till the very last day of his earthly life, but his company lives on in the spirit of comrade Lars, a true Viking warrior who never backed away from danger and controversy when his fatherland called him.

Ragnarock have been the main driving force behind the Swedish scene for many years, they're responsible for the releases of band like the great 'Heroes in the Snow' 'Dirlewanger' 'Barsarkarna' 'Plutons Svea' 'Storm' and many more, most if not all are sold in the mainstream Swedish record stores and some have become best sellers, support Ragnarock, support the spirit of Lars Magnus Westrup.

# 'Involved Patriots'

Photo on Left,  
Involved Patriots,  
Left to Right : Ian  
Ted, Danny, Dean.

**Involved Patriots** are fastly emerging as Canadas No.1 White Power band and have gained alot of fans over the last year who have enjoyed there heavy style fof music so much so Nordland Records of Sweden have signed them up for a forthcoming Cd release, British Oi though we'd find out more about them and this is the end result, questions answered by Ted and Danny of the band.....

1. When, why and where did Involved Patriots form ?

Danny - Basically from '88-'91, I was in a Grindcore band during which time I became involved as a Skinhead. In '91 the Grindcore band I was in split up and I then decided to start another band but this time not just to play music but for my Race!

2. Whats the current line up and have you experienced many problems with line ups in the past ?

Danny - The current line up is Me(Danny) Lead Vocals/Guitars, Dean on Guitars and backing vocals, Ted on Bass/Backing vocals and Ian on drums.

Yes we've had alot of line up changes, everytime we were ready to do a show or go into the recording studios someone would quit, it was

very frustrating, always the guitar player too. I used to play the bass parts but through a mutual friend I met - Ted who is a good player. So I decided to take over the guitar playing and then we also acquired Dean who was also in the Grindcore band I mentioned earlier, and now the line up is pretty solid and I don't see any problems arising.

3. How did you come about choosing your name ?

Danny - Being a skinhead with National Socialist values, it was important to me to have a name with meaning. We thought of a bunch of names but when **Involved Patriots** came up I knew that was the one. Involved Patriots defined is : some-one or some person fighting with full strength for there race in thier country.

4. In your area, how is the NS/Skin scene and do they support you ?

Ted - In eastern Canada where we are situated, the scene is finally getting better after a bit of a lull. There hasn't been any shows for a while so giving examples such as numbers of folk etc is kinda hard, but we've recently put on a small show with **Max Resist** and about 80 people turned up, I know

that may seem a small number, but we kept the show a secret and only told a few trusted comrades about it. So it was just mostly friends and their friends. The next show we put on is gonna be huge. There is tons of support for Involved Patriots from all over the world, we get letters of support from everywhere, France, Germany, UK, even Serbia!

5. How many gigs have you done?

Danny - Involved Patriots have done about 10-12 shows due to line up problems and as Ted just said we just did a small show with Max Resist which was our first show in a long time. But now we have some deicated players in the band people are gonna see alot more of us on the White Power circuit. The most memorable concert we have done was playing at the '1st memorial concert to Erik Banks' with B.F.G, Aggravated Assault, Aryan, Rahowa, Max Resist and more....It was a great honour to be a part os this show.

6. The Canadian laws on Racism are very similar to Britains 'Hate Whitey' laws, how does this affect your band ?

Ted - We have to be very careful. ZOGs anti white laws in Canada are tough and to be charged with a hate crime is very easy, so promoting shows is done by word of mouth and flyers sent to friends/comrades. We have alot of people in our region so turnouts for gigs and political activities are normally quite large, in Montreal the commie scum stay well away, so problems with these fools don't normally arise.

7. How is Canada in General ?

Ted - Canada is a very beautiful country but it also has a government bent on destruction of its founding race, the Euro Canadians, with such tactics as the promotion of multiculturalism which I might add, the government spends endless tax dollars on, and the promotion of Queers

and the like. You can't watch a T.V programme without some kind of Faggot/sex deviant promotion, be it a commercial, sitcom, or even the news, the youth of today are being subjected to an endless barrage of sexual blasphemy, so as you can see, ZOG is not only trying to destroy our great race through racemixing but also by encouraging Homosexuality thus ending Pro-Creation. Enough is enough, it must be stopped.

8. Whats your views on the French independance claim on Quebec ?

Danny - I think Independance will get alot of people motivated to help themselves, the way it is now, ZOG decides for us by letting in masses of immigrants with thier 'Open Door' immigration policies. The time has come for Quebequois to decide for there own future, we've been struggling for our independance for 30 years now, the Canadian Government (ZOG) sure hasn't been good for us, lets see what we can accomplish on our own! The way I see it is, we are not turning our backs on the rest of White Canada but saving a part of White Canada, which are the white people from Quebec.

9. Back to the band....Could you tell us a bit about your songs ?

Ted - All of our songs are in English with the exception of one in French. All our material is based on National Socialist ideals and the great '14 Words', we try to inform the white youth of whats right and wrong in this sick society we are forced to live in.

10. What plans do you have to produce a CD ?

Ted - We just got out of the studio at the beginning of october and our debut CD is out in December available from Nordland Records in Sweden. It has 12 songs on it with one special cover song in memory of the late great Ian Stuart. Also we have three songs on Nordlands 'White Pride World wide Vol.2'.

11. Any merchandise available ?

Danny - Yes we have three t-shirt styles available and patches soon, write to Involved Patriots, CP 913 Succ.B, Montreal P.Q, H3B 3K5, Canada.

12. What other Canadian bands do you rate as good/bad ?

Ted - There isn't alot of bands in Canada right now but the ones who spring to mind are 'Odins Law' from B.C a very good band, 'Aryan' whci I don't really know whats happening with them, and 'Rahowa' who have just realeased thier new CD 'Cult of the holy war' which is supposedly excellant, we encourage all white youth to start bands, if they sound bad, practice will solve that, Bad doesn't exist to me.

13. What do you hope to acheive over the coming year ?

Danny - Success over success, we want to play shows, shows, and shows. To get the message of white unity into kids heads so that we can prevent total abomination of the

white race.

14. Any closing comments ?

Danny - We would like to thank British Oi for this interview and also I'd like to add that because of British Nationalism and people especially like Ian Stuart there is a movement today, without Ian Stuart there would be no White Power music scene.

Ted - Thanks to British Oi - 88.

Cheers to I.P for the indepth interview, good luck for the future.

# BRITISH OI! **MUSIC!**

## CELTIC WARRIOR 'Let the battle begin' - Celtic Pride Records.

As already mentioned in British Oi! No.35 this great CD is now available for all and sundry to buy. A great CD from the Welsh warriors. 10 heavily racial tracks to get your feet stomping and arms raised, tracks to watch out for are 'Let the battle begin' 'Under the rule of ZOG' and 'Whites with attitudes', buy for £12 from PO BOX 214, Cardiff, Wales, GB. 10/10.

## HONOR - Steel Vengeance - Thor Records.

A CD I received to review recently and wellm, what have I been missing out on, this Polish band are great, very melodic, very good musicians. 10 tracks, ones to watch out for are 'Sign of the eagle' 'On the triumph day' 'Genocide' and the great 'Lets Arise', well presented cover too, buy for £12 from BOX 2361, 50-951 Wroclaw 3 Poland. 9/10.

## BRUTAL ATTACK - Valiant Heart (Rising above all) Excalibur Records.

The final chapter in the Ressurrection trilogy. This CD shows Brutal Attack in a fast spirit with some very catchy tracks. 19 tracks all in all, which include 5 old demo tracks that include 'RAC' 'Through the darkness' and 'As the drum beats' and 14 new tracks in traditional B.A fashion. Tracks include 'Keep the faith, Red Death, Firestorm, I pray I will return' and my favourites 'Salute' a catchy anthem type of song and a great Ian Stuart remembrance ballad called 'The last day of summer' - brilliant. £12 from Excalibur Records, PF 100672, 44706 Bochum, Germany. Buy it.....10/10.

## STORM - Nordavind - Nordeffekter Mail Order.

A new band from Norway consisting of band members from already existing Norwegian Rock bands, strong Viking Rock, that has caused quite a stir in Norway, as established musicians aren't supposed to sing nationalistic music 'or so they

say!'. Folky/Rock maybe a better way of describing this. Tracks amount to 10 and include 'Villemann' 'Lokk' 'Utferd' and the chilling 'Innferd' language barrier a small problem but still very enjoyable....Buy for £12 from Nordaffekter, Postboks 104, 2060 Gardemoen, Norway....9/10.

## WHITE PRIDE WORLD WIDE VOL.2 - Nordland Records.

Part 2 of the White Pride world wide compilation CDs, this well laid out CD complete with a huge '88' on the disk features Swedens 'Swastika' & 'Storm', Canadas 'Involved Patriots' Czech Republics 'Buldok & Excalibur' USAs 'The Voice' and 'No Remorse (One with Paul)'.

16 tracks all in and what a scorcher, Swastikas tribute track for Rudolf Hess entitled 'Spandau Hero' is great, very rocky, very fast, Canadian debutees 'Involved Patriots' a very heavy rock sound that would easily give metallers 'Berserkr' a run for there money give us three brilliant tracks, my favourite being 'Ignorant Society', Storm give us some very catchy heavy Oi! sounding material with a great new version of the Stormfront classic 'not in vain' about Robert Matthews and Buldok deliver the goods with three rip roaring tracks. Buy it for £12 from Nordland, BOX 1088, S-11479 Stockholm, Sweden. 9/10.

## SWEDISH / GERMAN FRIENDSHIP - Last Resort Records.

A new friendship created, obviously influenced by the original German/British friendship created sometime ago. This features Swedens 'Steelcapped Strength' and Germanies 'Volkszorn'.

10 tracks, 6 in English, 4 in German. Steel-capped Strength for me are great, fast Oi music in a typical Swedish style, best tracks are 'Victory' 'Dignity' and the great 'Blood in your face', Volkszorns best has to be the catchy 'Heim-atrecht', £12 from Last Resort Records, Box 149, S-13623 Haninge, Sweden.....8/10.

## ASGARD 'Der Sturm Bricht Los' - Vincente Directori Publications, Germany.

The second CD from Asgard, a project created by Kai known to us as lead guitarist and singer of German band 'Freikorps', Kai, on this actually plays all instruments and sings.

10 tracks in all, some slow Oi! tracks, but most very catchy fast Oi!/German style. Tracks to watch out for are 'Felsen in der Brandung' 'Arche Noah' and a very rocky, somewhat Skrewdriver influenced 'Auf in eine neue welt', buy it now, well laid out cover too, £12 from Vincente Directori Publ., PO Box 1365, 21505 Glinde, Germany..... 9/10

**STURMFLACGE 'Im Zeichen des blutes' - Vincente Directori Publications, Germany.**

A band reformed from the '80s who the German state banned, they tried to ban this but the record firms lawyer worked well and here it is, 13 tracks all in all of very catchy Oi! in typical German style, basic music, with heavy lyrics, deep voice etc. A variety of variations of Oi make this appealing, some rock n roll types, some ballads, some fast, a good mix. Tracks that I really enjoyed are 'Blaue augen, blondes haar' 'Namenloser held' 'Unser Folk' and 'Ich bin ein deutscher', the language barrier obviously is a problem, but I'm a German Oi! fan anyway, so if like me you like this type of stuff, buy it, well laid out colour cover etc, buy for £12 from V.D.P, PO Box 1365, 21505 Glinde, Germany..9/10.

**'FUORI DAL GHETTO' - Italian Comp. - Tuono Records.**

A new compilation from Tuono Records - Italies premier White Power label. 'Fuori Dal Ghetto' (Out of the Ghetto) features all Italian bands - Peggior Amico, ADL 122, Gesta Bellica, Londinium SPQR, Intolleranza and more, a mixtures of styles on this actually, from ballads to Oi to skinhead rock which is good. Well laid out CD and in my view the best tracks being 'Fuori dal ghetto' by Peggior Amico and 'Toni era uno Skin' (Tony was a skin) by ADL 122 which brought back good memories of the Ian Stuart gig in '94 when they featured on the playlist. Buy it now from Tuono Records, C.P Succ 6, 36100 Vicenza, Italy for £12 including P&P.....9/10.

**VIOLENT STORM - 'Celtic Warrior' - ISD Records.**

The long awaited release of the tragically lost band of lads from Cardiff, Billy the only survivor of a horrific car crash has worked long and hard on this release and in conjunction with ISD Records here it is, 16 rip roaring tracks, remastered and digitally tuned to give great sound quality, tracks include Violent Storm classics 'Celtic Warrior, Europe of the Peoples, Stand or Hide, The Same Inside and the haunting guitar on the original 'White Eagles of Snowdon' make this a great CD, I reckon every nationalist skinhead in the world should have this in there collection first off as a mark of respect and secondly as its great, buy it for £12 from Celtic Warrior, PO Box 214, Cardiff, South Wales, UK. make POs/Cheques to N.Bartlett.....10/10.

**More Working Class Anthems - Hammer Records.**

Part two of the 'Working Class Anthems' LPs from London based Hammer Records. Bands include Section 5, Super Yob, The Burning and more, not a good cover etc but some tracks are

quite catchy such as Section 5s 'Slut' and The Burnings 'Eternal Fool', I'm not sure how much but available from Hammer Records, BM Box 1977, London WC1N 3XX.....8/10.

**CONDEMNED 84 - 'Amont the Thugs' - Hammer Recs.**

I didn't know Condemned were still going but yes and this proves it, but haven't I heard it all before this type of tinny music doesn't appeal to me, tracks include 'Our Colours, Elite and Enemy within, non political material in large. Available from Hammer Records as above, this grows on you.....6/10.

**DRESDEN - 'Call of the Blood' - National Vanguard.**

A tape release from a USA band called Dresden who promote a new kind of music for White People. Titles are 'Horst Wessel Song, ZOG/Blood and soil, White Amerika, The Stormer and more. A strange music, bit of synthesizer, choirs etc etc, different, available for \$10 from National Vanguard Books, Box 330, Hillsboro, WV 24946,USA. ....7/10.

## IAN STUART MEMORIAL GIG

30th September 1995

Location - Near Caerphilly, South Wales.

Bands featuring : Celtic Warrior, English Rose, Warlord, Swastika, Razors Edge and No Remorse.

The day had come for the most important gig of the year, the time we remember and honour our lost martyr 'Ian Stuart' the great leader of Blood & Honour and talented musician with Skrewdriver.

For weeks on end people had been contacting British Oi<sup>3</sup> for more details but due to security being of utmost importance we had to decline all knowledge of its whereabouts, but on the day the main organisers from across the UK would give details to all interested parties, that wished to attend.

So we made the trek into Wales and arrived at the venue at roughly 5 O'Clock and first off, no reds spotted, no plod. So off to a near boozier and taste some fine Welsh ale. After a few beers and chat to comrades who were there from all over the UK, Sweden, Denmark, France, Germany and more we made our way to the hall for the gig.

After getting in, more beer and see whats for sale, all sorts, badges, patches, an impressive stall by R.I.D and well it was spend, spend, spend.

On first came **Celtic Warrior** unfortunately missing Stinko the bassist due to illness but another comrade filled in quite good. They really got the crowd going, all the battle hymns thrashed out including 'Let the battle begin' 'White Eagles' 'Whatever it Takes' 'Brand New day' and more, got the crowd of which incidentally easily topped 500, warmed up with an array of raised right arms.

Up next were **English Rose** the Leicester lads who played a well rehearsed tight set of crowd favourites like 'Wasting Away' 'Skinheads' 'SHARP' and 'England belongs to me', had the crowd going wild.

Next up after a short break and time for more

flowing beer were **WARLORD**, there debut gig, what a show, well rehearsed, heavy sound, they blasted there way through 'House of Treason' 'Fools No More' 'White Noise' 'White Power' 'Smash the IRA' and more, to thunderous cries of 'Sieg Heil' they played great, a fitting tribute to Ian.

Next in line were **Razors Edge** who although only played a short set, due to time running out - I assume ?, played crowd pleasers such as 'Ulster Freedom Fighters, No Room Here, Jobs not Immigrants' etc, had the dance floor packed with a horde of Aryan warriors with attitude problems, hailing the spirit of Ian.

Next up were Swedens **Swastika** who were playing there debut gig on British soil and wow, what a tight well rehearsed set of lads, they led into thunderous versions of White Power, Streetfight, In Hoc Sign Vinces, Racewar, De Stupes Blod, and more, Matti the singer really got the crowd involved and had the mass of arms raised. A great set and a fine example of how good some of the European bands are.

Incidentally before Swastika came on a two minutes silence was held for Ian with everyone in the hall taking heed and respecting, and honouring Ians name. Well done everyone who did this, after two minutes silence, I raised my right arm and saluted with the other 500.

Last up were **No Remorse** without the superstud himself Paul Burnley, instead a well rehearsed gang of lads out to prove a point, that they're the real No Remorse not Paul and the various musicians he uses across Europe as hes too frightened to show his face in England. But they looked the part, big Jacko the singer can best be described as 17st of muscle on legs, a great frontman. They unleashed the berserker spirit with No Remorse tracks such as 'Smash the Reds, N\*\*\*\*r, This time the world, and more oldies, plus new tracks of which I didn't really catch the titles of but I think one was called 'In god we trust' plus a great singalong version of the Sex Pistols 'Belsen' track. Considering this was there only gig they did great, look forward to seeing them again.

After these **English Rose** and **Razors Edge** did a couple of encores to keep the eager, but fairly drunk crowd happy.

Of all the bands on the night, I beleive all played great but Stiggers new outfit **Warlord** played exceptionally well and many a tear was in our eyes to hear classics such as 'Fools No More and House of Treason' being played, a great gig, for a great man,

HAIL IAN STUART.

GIG - Patriotic Ballads - Location - Italy,  
Featuring Stigger and Noie Werte -26.8.95.

Off we go again, its been too long since I last visited my Italian brothers. This was to be a Ballads concert arranged by Steffan from 'Noie Werte' with me (Stigger), himself and his drummer 'Kai' playing guitar.

We were met at Venice airport by Caio a leading figure in the Veneto Front, who then drove us to meet the rest of the lads at a hotel, in one of the scenic areas of Veneto. This was thursday 24th.

We all had a meal, about 20 of us, and sat up exchanging stories and drinking 'Vats' of Vino ubtil about 2am.

Friday the 25th - A late start which was appreciated and it wasn't until dinner time when we made a move to the site of the concert, we spent all afternoon there getting things ready for the next day. Another hard night of drinking and feasting followed - 'Burp!'.

Saturday the 26th - What a hangover! Terrible stuff Red wine, and it goes straight through you, my arse looked like the Flag of Japan.

We arrived at the concert site mid-afternoon, the place was a hive of activity, and since the weather was nice it was decided to have the gig outside, so everybody was involved in setting up a marquee and the P.A system, a few beers and a sound check and we were ready.

A good crowd turned out - Swedes, French, Germans and of course the Italians, even some Yanks.

I'm not sure who the first band were, they had a small girl playing a full size Bass guitar, as though it was a double bass, a keyboard player, a guitarist called Dario who thought he was Elvis (?) and three singers - strange but true.

They played traditional Italian Nationalist songs that sounded really good, but as for understanding the lyrics, they could've been calling me a wanker and I'd have no clue, got the crowd going - good band.

Then it was our turn, Myself and Kai had only one practice so I was very impressed how well he performed. We started with 'Tomorrow belongs to me'. The set seemed to have only lasted 5 minutes, but we actually played for 2 hours, songs included 'Suddenly, Night Trains, Gone with the breeze, Snow fell etc etc etc'.

Words fail me to describe how I felt. The last time I had done these numbers was with Ian and especially during 'Suddenly' and 'Gone with the breeze' I felt a great sadness, I often wonder, did Ian know something we didn't ? But I think it was a message of hope, after all that has happened, after all the blacklistings and hatred from the media, WE ARE STILL UNITED across the seas as strong as ever. Other songs we played included 'Devils right hand, Green fields of France, Returno a Camelot, Sleep well my brother and the Road to Valhalla.

There was a disco after the gig and everyone got merrily pissed, there was only one bit of trouble between the Veneto Skins and the Milan skins but that soon blew over and the night ended on a high note.

Sunday the 27th - time to fly back to 'old blighty', what a great time I've had, everyone agreed the concert had been a great success, I'd like to take this opportunity to personally thank Caio and all the Veneto Front for their kindness and hospitality, also the big difference between England and Italy is the fact that it is more of a family to them, they all eat together, fight together and most of all, pull together and make sure everything they do is a success, I have nothing but admiration for them.

Roving Reporter STIGGER signing off.....88.

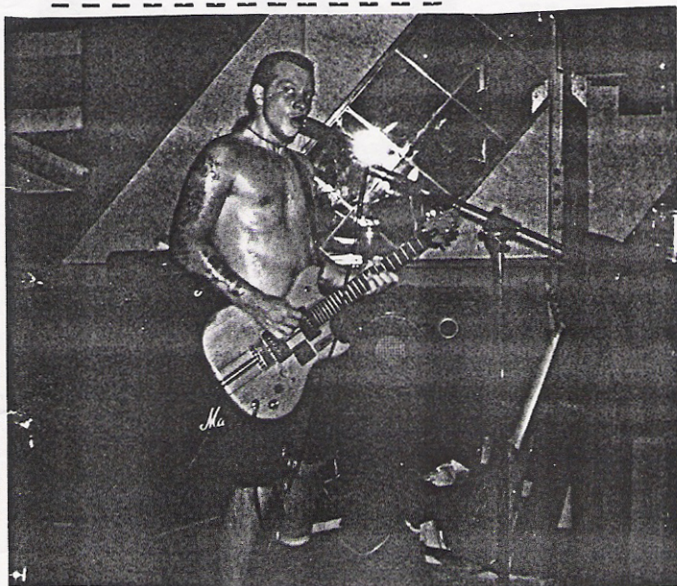

Patriotic Ballads, Pride and German British Friendship CDs are available from R.I.D merchandise and all feature Stigger, Ian Stuart, Noie Werte and Ken McLellan, priced at £12 inc. postage and packing...also available from RID is a large range of t-shirts, CDs etc etc - RID PO BOX 249, DERBY, DE21 9EG.

**BALLADS**

Ian Stuart Memorial Gig - Sept. 30th '95, Hungarian Blood and Honour Division.

Bands: Archivum, Valhalla and Squadron.

Venue: The Viking Club, Budapest Hungary.

The Eastern Block Tour continues and we were warmly greeted at Budapest Airport. It was a great honour to be the first British B&H band to be invited to play Hungary, and we arrived a day early to take in some sight seeing.

First up was the 'Buda Castle', its built nice and high and gives an amazing view of the city and because theres a river that runs right through Budapest, the view bore an uncanny resemblance to London, the castle was great and we wandered to check out the 'Catacombs'. Theres over 20 miles of underground tunnels below the city, connecting the Castle and Parliament building, the tunnels were used by the Third Reich during WW2 and now theres a guided tour telling of 1100 years of Hungarian history, about all the kings, and even about when the Hungarians defeated Genghis Khan. Hungary has a very anti-zionist history and thats probably why the country has halved insize after WW2, infact Rumania was given land equivalent to the size of Hungary today.

Theres plenty to do in Budapest, all the usual Western influences, Pizza Hut, Burger King etc and we were pretty impressed with the full sized posters advertising the Memorial gig in the centre of town alongside Iron Maiden.

Still, thats enough waffling, onto the gig..

Theres very few cars in Hungary, the buses and trams are free and so is the underground, if you avoid the ticket collector. We took two trams and the underground to the gig which was amusing with all the gear, but after a short

walk we got to the club.

A good sized club, nice high stage, 2000 watt P.A and 30p a pint, and theres over 1000 skins in Budapest, its going to be a good night.

About 600 comrades attended the gig, Poles, Czechs, Slovenians and Hungarians, the atmosphere was great and Archivum took to the stage. We were most impressed when the front 200 people started dancing, it was like Skrewdriver in 1984 all over again. Archivum were good and tight, their songs were about the old Police state, anti communist, Third Reich etc, and they are really impressive.

Next up were Valhalla who only changed there vocalist and drummer one month previous but they also played well, the high spot of there set was 'Hail Victory' in Hungarian.

Last up were Squadron, lagging a bit as usual but so would you at 30p a pint. They opened with 'Death before Dishonour' into 'Hail the New Dawn' and all the usual set, 'Just like Sheep' had the crowd rocking and 'Open up your eyes' and a 'Final Salute' were all well received and they ended with 'White Power' and 'Hail Victory', a very succesful gig, no Police, no real aggro and the assurance that Ian Stuart will live on in Hungary for the rest of time.

We couldn't face the bus and tram so we got taxis back, it cost £8 for two taxis so we weren't too bothered.

Full marks to the Hungarian crew for there excellent organisation and hospitality, they even fed us with Hungarian Goulash, thanks as always to Rok and the Slovenians for there non stop shouting throughout the gig and if your passing Hungary one day, drop in, it might surprise you.
